Professional Ethics:

Professional ethics refers to the ethical principles and standards that govern the behavior and **decisions** of professionals in their specific fields. These principles and standards are established to ensure that professionals act with integrity, honesty, and accountability while providing services to their clients, customers, or stakeholders.

The subjects relevant to professional ethics are **Pharmaceutical Jurisprudence, Community Pharmacy, Hospital Pharmacy, Clinical Pharmacy, Pharmacoepidemiology and Pharmacoconomics, IPR and Regulatory Affairs, etc.**

Human values:

The main Human Values are honesty, fairness, respect, responsibility, caring and citizenship. These values are the core of any human society and they should be applied in every area of life. The subjects relevant to Human values are Social and Preventive Pharmacy, Quality control and Quality Assurance, Food Analysis etc.

Gender equity: Gender equity means respecting all people without discrimination, regardless of their gender. It also means addressing gender inequalities that limit a person's ability to access opportunities to achieve better health, education and economic opportunity based on their gender. The subjects relevant to Gender equity are Human Anatomy and Physiology –I & II, Remedial Biology, Medicinal Biochemistry etc

Environment and Sustainability:

Environmental sustainability is the responsibility to conserve natural resources and protect global ecosystems to support health and wellbeing, now and in future. The subjects relevant to Environment and Sustainability are Environmental Sciences, Pharmacognosy and Phytochemistry I&II a, Pharmacognosy & Phytopharmaceuticals etc
