Seminar on
“Importance of IPR in Modern Global Economic Environment”.

Program: “Importance of IPR in Modern Global Economic Environment”
Resource Person: <p align="center">Dr. Ratnakar Department of Pharmaceutical Chemistry</p>
The conference on “Importance of IPR in Modern Global Economic Environment”
Conducted by Vaagdevi College of Pharmacy, seminar scheduled on 07/07/2022. The location of the event is Vaagdevi College of Pharmacy.
Venue: Vaagdevi College of Pharmacy.
Students participated: Students of Pharm D and B. Pharmacy
Number of students participated: 50
After student interaction with Dr.Y.Shraavan Kumar, vote of thanks was given by the organizing committee member Mrs.S. Pavani.

Economic theory exhibits that IPR could play either a positive or negative job in cultivating development and improvement. The restricted proof accessible proposes that the relationship is certain, however reliant on different variables that help advance advantages from licensed innovation assurance. To some things up, Intellectual Property Rights could be compelling and advertise based components for conquering issues that exist in business sectors for data creation and scattering.

Conference on “Research Methodology on Quantitative and Qualitative Research”.

Programme: Research Methodology on Quantitative and Qualitative Research
Resource person: Prof. G. Achaiah Director, Internal Quality Assessment Cell (IQAC), Kakatiya University, Warangal.
The conference on “Research Methodology on Quantitative and Qualitative Research” organized by Vaagdevi College of Pharmacy, conference scheduled on 12/08/2021 at college auditorium.
Venue: Vaagdevi college of Pharmacy.
Students participated: Students of Pharm D and B. Pharmacy
Number of students participated: 55
After student interaction with speaker vote of thanks was given by the organizing committee member.

The main purpose of the event is to keep informed the student. It is important to be able to identify and understand the research approach underlying any given study because the selection of a research approach influences the questions asked, the methods chosen, the statistical analyses used, the entrances made, and the ultimate goal of the research. Although some research may incorporate both qualitative and quantitative methodologies, in their 'pure' form there are significant differences in the assumption underlying these approaches, as well as in the data collection and analysis procedures used.

After student interaction with Mrs. S. Pavani, vote of thanks was given by the organizing committee member.

A patent is a type of intellectual property that gives its owner the legal right to exclude others from making, using, or selling an invention for a limited period of time in exchange for publishing an enabling disclosure of the invention. In most countries, patent rights fall under private law and the patent holder must sue someone infringing the patent in order to enforce their rights.

Filing a patent can not only transform your idea into an invention but it can also help secure exclusive rights to market or license your invention.
